

COURSE DESIGN SPRINTS

Short. Focused. High-impact.

This summer, partner with an instructional designer to refresh, redesign, or reimagine your course.

In just 1–6 weeks

you'll walk away with practical, ready-to-use improvements.

Why Join a Design Sprint?

- Make targeted improvements without starting from scratch
- Get expert support tailored to your course
- Save time while increasing student engagement
- Walk away with ready-to-use materials

Choose Your Sprint

Online Course Refresh (2–3 weeks)

Upgrade your existing online course.

Perfect for: Improving clarity, structure, and engagement in an existing course

Assessment Sprint (1–2 weeks)

Transform a key assignment into something clearer, fairer, and easier to grade.

Perfect for: Reducing grading challenges & addressing AI/academic integrity

Blended Learning Sprint (2–6 weeks)

Provide students with more flexibility and move part of your course online.

Perfect for: Finding the right balance between in-person and online learning

AI Design Sprint (1–2 weeks)

Design thoughtful, transparent ways to integrate AI into your teaching.

Perfect for: Exploring responsible and meaningful AI use

Course Kickstart (1–2 weeks)

Start strong with a clear, intentional course design plan.

Perfect for: New courses or major redesigns

Not sure where to start?
We'll help you choose the right sprint.

WHAT WORKING WITH US LOOKS LIKE

Our Course Design Sprints are collaborative, hands-on, and results-driven.

You bring your course. We bring structure, strategy, and design expertise.

What We'll Do (Together)

Depending on your sprint, we'll help you:

- Align outcomes, assessments, and activities
- Improve course structure and flow
- Redesign assessments for clarity and integrity
- Design engaging learning experiences
- Integrate AI thoughtfully and transparently
- Plan or refine blended learning

What You Could Walk Away With

Real deliverables you can use right away:

- ✓ Updated course structure or design plan
- ✓ Redesigned assignment + rubric
- ✓ Ready-to-use course components
- ✓ Clear student instructions and guidance
- ✓ Practical strategies you can reuse in future courses

Low-Commitment. Big Impact.

Regular meetings with an Instructional Designer over a short timeframe, results in practical improvements you can implement right away.

Why Faculty Love Working With Us

"Working with an ID played a crucial role in elevating the overall quality of our course material."

"They demonstrate a deep understanding of instructional best practices."

"They have helped me build better courses and to deliver courses more effectively."
