

USask graduates are the LEADERS OF TOMORROW

The knowledge, skills, and perspectives you gain while attending the University of Saskatchewan prepare you to become tomorrow's leaders—contributing to societies and addressing the greatest challenges and opportunities the world faces.

You will achieve this success by becoming proficient in these six competencies and the courses you take at USask will help get you there.

1

Engaging in our intercultural society

Students who thrive as members of a diverse society handle diversity in perspective, position, and approach adeptly. They communicate and collaborate effectively within diverse groups and an increasingly global society.

2

Nurturing successful relationships

Students who nurture successful relationships can describe their values and beliefs while embracing diversity in others. They are accountable for their actions, manage conflict, successfully prioritize, and negotiate for successful results.

3

Leveraging technology

Students who can leverage technology are able to use digital/technological tools and systems ethically, appropriately, and effectively to complete tasks and accomplish goals.

4

Adaptive design and problem solving

Students who effectively solve problems and create work that is adaptable are strong and creative thinkers. They exercise innovation, critical thinking, and risk taking in the design, implementation, and evaluation of an approach to achieve a desired goal.

5

Communicating meaningfully

Students engage in meaningful communication when they exchange ideas, facts, and perspectives with others. They use different strategies to communicate depending on the context and audience.

6

Cultivating well-being

Students effectively engage in cultivating well-being when they reflect on what they are doing and on their personal and academic needs, and then make appropriate adjustments to be successful. They engage in thoughtful decision-making and are self-aware and reflective, so they can purposefully navigate adversity. Students respect personal limits and boundaries of themselves and others, and persist in the face of change.

BE WHAT THE WORLD NEEDS
